

The NJ Do Not Call law is one of the best things about living in NJ! We have received almost 100% relief from those annoying and obnoxious telemarketers with their speed dialers. FCC, Please do not fold under the pressure of telemarketers to overturn the NJ law. After all, if I can put up a sign on my front lawn that says "no soliciting" why can't I do the same for phone number??? It's a matter of privacy!
